Description of Program Service OneScholarship Awards:

In fiscal year 2006 over 24,000 children across the US benefited from scholarships awarded by CSF and its partner programs. By helping these children attend over 4,000 private schools we demonstrated our concern for those who lack meaningful educational opportunities. These children, all of whom are from low-income families, are receiving the education desired by their families due to the generosity of our donors and the efforts of scholarship programs in 39 locations. Since its inception in 1998 more than 78,000 children from low-income families have benefited from attending the private school of their choice with \$210 million in tuition assistance from CSF and its partner programs.

Description of Program Service Two

Program management, outreach and support:

Program staff work with parents and schools to ensure the integrity and efficient management of the program. The program staff verifies eligibility and student attendance, disburses the tuition assistance payments to schools and annually requalifies returning students.

The Children's Scholarship Fund maintains partnerships with local scholarship programs in communities around the country. In addition to providing matching grants to these organizations, the Children's Scholarship Fund also trains local program staff and has deveolped and maintains specialized software that is use to manage scholarship awards.

Explanation

The Children's Scholarship Fund was formed for the purpose of expanding educational oppurtunities available to low-income families. CSF provides partial tuition assistance to help disadvantaged children gain access to the elementary schools of their choice. In furtherance of its mission, CSF makes matching grants to other scholarship organizations so they may also provide partial scholarship awards to children from low-income families.

The Children's Scholarship Fund does not have a scholarship selection committee. Generally families with children entering K-8th grade who meet income eligibility requirements may apply for tuition assistance. The income eligibility levels are determined by referring to the poverty levels set by the federal government. The amount of each scholarship is determined by the income of the applicant, the number of dependents and the tuition of the selected school. The number of awards is determined based on available funding. The awards are made either on a first come first served basis or by selecting recipients through a random drawing. The maximum award is

generally 75% of tuition or \$2,050.

The Children's Scholarship Fund ("CSF") awards partial scholarships so that children from low income families can attend the private or parochial school of their choice. In furtherance of its mission, CSF makes grants to other scholarship organizations so they may also provide partial scholarship awards to children from low income families. Since 1999 CSF and its partner programs have awarded more than 78,000 scholarships to low income families. For the year ended August 31, 2006, the total value of the scholarships awarded by CSF and its partner programs amounted to \$30,480,000. CSF distributed \$18,672,000 of these awards. The remaining \$11,808,000 was funded by matching contributions received by the other scholarship organizations. A schedule of individual award payments for academic year 2005-06 follows. A schedule of matching grant payments made to other scholarship organizations is below.

Additionally, for the year ended August 31, 2006, CSF made grant payments to scholarship organizations totaling \$536,000 for program support costs. The program support grants are generally provided on the basis of one dollar for every two dollars of contributions received by these organizations. The amount of program support costs eligible for matching grants is limited to 10% of scholarship costs.

Changes in the net present value of scholarships and grants payable for the year ended August 31, 2006 is as follows:

Net Present value of scholarships and grants payable at August 31, 2005	\$ 1,276,565

**The Children's Scholarship Fund
8 West 38th Street
New York, NY 10018**

**Statement 13
Federal Form 990
Fiscal year ended August 31, 2006**

**Schedule A, Part IV-A
Public Support Schedule**

EIN 13-4002189

Since inception, The Children's Scholarship Fund ("CSF") has actively solicited contributions from the general public. During the fiscal year ended August 31, 2006 we received contributions from 289 individuals, foundations and corporations. During the past 5 years more than 2,000 donors have made contributions to CSF.

While these donors have given generously, CSF continues to seek new donors so that we can expand the number of scholarships we award to children from low income families. Our fiscal 2006 fundraising activities included the following:

- We researched and identified likely potential donors and sent these individuals specifically targeted mailings. We sent more than 12,500 pieces of mail to these potential donors and our current donors. These mailings consisted of newsletters, program updates, donation appeals and holiday cards.
- We researched and identified foundations that would likely support our programs. During the fiscal year we send 19 funding proposals or letters of inquiry to these foundations.
- Officers and senior staff members are active in professional, community and other organizations as a means to identify potential donors and to inform them of our work.
- Officers and senior staff members stayed in regular contact with our current donors and Board members and frequently solicited their input on other potential donors.
- In order for our donors and potential donors to learn more about the children and families we serve, we sponsored luncheons at schools that some of our scholarship recipients attend.
- We maintain an up-to-date website where it is possible for donors to contribute on-line.

In prior years, CSF undertook a more expansive direct mail campaign (including sending a donation appeal letter to more than 100,000 potential donors). This fundraising effort was only a limited success. Accordingly, CSF expected to only selectively use this method in the future.
