

Return of Organization Exempt From Income Tax

2001

Open to Public Inspection

Department of the Treasury
Internal Revenue Service

Under section 501(c), 527, or 4947(a)(1) of the Internal Revenue Code (except black lung benefit trust or private foundation)

The organization may have to use a copy of this return to satisfy state reporting requirements

A For the 2001 calendar year, or tax year period beginning **JUL 1, 2001** and ending **JUN 30, 2002**

B Check if applicable:

- Address change
- Name change
- Initial return
- Final return
- Amended return
- Application pending

Please use IRS label or print or type. See Specific Instructions

C Name of organization
TORREY PINES INSTITUTE FOR MOLECULAR STUDIES, INC.

Number and street (or P O box if mail is not delivered to street address)
3550 GENERAL ATOMICS COURT

City or town, state or country, and ZIP + 4
SAN DIEGO, CA 92121

D Employer identification number

33-0319501

E Telephone number

(858) 455-3803

F Accounting method: Cash Accrual
 Other (specify) _____

Section 501(c)(3) organizations and 4947(a)(1) nonexempt charitable trusts must attach a completed Schedule A (Form 990 or 990-EZ)

H and **I** are not applicable to section 527 organizations

H(a) Is this a group return for affiliates? Yes No

H(b) If "Yes," enter number of affiliates: _____

H(c) Are all affiliates included? **N/A** Yes No (If "No," attach a list)

H(d) Is this a separate return filed by an organization covered by a group ruling? Yes No

I Enter 4-digit GEN: _____

M Check if the organization is not required to attach Sch B (Form 990, 990-EZ, or 990-PF)

G Web site **WWW.TPIMS.ORG**

J Organization type (check only one) 501(c) (3) (insert no) 4947(a)(1) or 527

K Check here if the organization's gross receipts are normally not more than \$25,000. The organization need not file a return with the IRS, but if the organization received a Form 990 Package in the mail, it should file a return without financial data. Some states require a complete return

L Gross receipts Add lines 6b, 8b, 9b, and 10b to line 12 **5,768,654.**

- 11b A community trust Section 170(b)(1)(A)(vi) (Also complete the **Support Schedule** in Part IV-A)
- 12 An organization that normally receives (1) more than 33 1/3% of its support from contributions, membership fees, and gross receipts from activities related to its charitable, etc., functions - subject to certain exceptions, and (2) no more than 33 1/3% of its support from gross investment income and unrelated business taxable income (less section 511 tax) from businesses acquired by the organization after June 30, 1975 See section 509(a)(2) (Also complete the **Support Schedule** in Part IV-A)
- 13 An organization that is not controlled by any disqualified persons (other than foundation managers) and supports organizations described in (1) lines 5 through 12 above, or (2) section 501(c)(4), (5), or (6), if they meet the test of section 509(a)(2) (See section 509(a)(3))

Provide the following information about the supported organizations (See page 5 of the instructions)

(a) Name(s) of supported organization(s)	(b) Line number from above

- 14 An organization organized and operated to test for public safety Section 509(a)(4) (See page 6 of the instructions)

TORREY PINES INSTITUTE FOR MOLECULAR

Part IV-A Support Schedule (Complete only if you checked a box on line 10, 11, or 12) Use cash method of accounting
 Note You may use the worksheet in the instructions for converting from the accrual to the cash method of accounting

Calendar year (or fiscal year beginning in)	(a) 2000	(b) 1999	(c) 1998	(d) 1997	(e) Total
15 Gifts, grants, and contributions received (Do not include unusual grants. See line 28.)	4,526,072.	4,812,747.	4,631,958.	832,481.	14,803,258.
16 Membership fees received					
17 Gross receipts from admissions, merchandise sold or services performed, or furnishing of facilities in any activity that is related to the organization's charitable, etc., purpose	1,675,958.	-51,773.	-11,245.	1,782,486.	3,395,426.
18 Gross income from interest, dividends, amounts received from payments on securities loans (section 512(a)(5)), rents, royalties, and unrelated business taxable income (less section 511 taxes) from businesses acquired by the organization after June 30, 1975	207,560.	351,071.	316,807.	1,957,575.	2,833,013.
19 Net income from unrelated business activities not included in line 18	64,539.	34,896.	26,866.		126,301.
20 Tax revenues levied for the organization's benefit and either paid to it or expended on its behalf					
21 The value of services or facilities furnished to the organization by a governmental unit without charge. Do not include the value of services or facilities generally furnished to the public without charge.					
22 Other income. Attach a schedule. Do not include gain or (loss) from sale of capital assets.					
23 Total of lines 15 through 22	6,474,129.	5,146,941.	4,964,386.	4,572,542.	21,157,998.
24 Line 23 minus line 17	4,798,171.	5,198,714.	4,975,631.	2,790,056.	17,762,572.
25 Enter 1% of line 23	64,741.	51,469.	49,644.	45,725.	
26 Organizations described on lines 10 or 11	a Enter 2% of amount in column (e), line 24				26a 355,251.
	b Prepare a list for your records to show the name of and amount contributed by each person (other than a governmental unit or publicly supported organization) whose total gifts for 1997 through 2000 exceeded the amount shown in line 26a. Do not file this list with your return. Enter the total of all these excess amounts.				26b 0.
	c Total support for section 509(a)(1) test. Enter line 24, column (e).				26c 17,762,572.
	d Add Amounts from column (e) for lines	18 2,833,013.	19 126,301.		26d 2,959,314.
		22	26b		26e 14,803,258.
	e Public support (line 26c minus line 26d total)				26f 83.3396%
	f Public support percentage (line 26e (numerator) divided by line 26c (denominator))				
27 Organizations described on line 12	a For amounts included in lines 15, 16, and 17 that were received from a "disqualified person," prepare a list for your records to show the name of, and total amounts received in each year from, each "disqualified person." Do not file this list with your return. Enter the sum of such amounts for each year.				N/A
	(2000)	(1999)	(1998)	(1997)	
	b For any amount included in line 17 that was received from each person (other than "disqualified persons"), prepare a list for your records to show the name of, and amount received for each year, that was more than the larger of (1) the amount on line 25 for the year or (2) \$5,000. (Include in the list organizations described in lines 5 through 11, as well as individuals.) Do not file this list with your return. After computing the difference between the amount received and the larger amount described in (1) or (2), enter the sum of these differences (the excess amounts) for each year.				N/A
	(2000)	(1999)	(1998)	(1997)	
	c Add Amounts from column (e) for lines	15	16		27c N/A
		17	20	21	27d N/A
	d Add Line 27a total	and line 27b total			27e N/A
	e Public support (line 27c total minus line 27d total)				27g N/A %
	f Total support for section 509(a)(2) test. Enter amount on line 23, column (e).	27f N/A			27h N/A %
	g Public support percentage (line 27e (numerator) divided by line 27f (denominator))				
	h Investment income percentage (line 18, column (e) (numerator) divided by line 27f (denominator))				

28 Unusual Grants For an organization described in line 10, 11, or 12, that received any unusual grants during 1997 through 2000, prepare a list for your records to show, for each year, the name of the contributor, the date and amount of the grant, and a brief description of the nature of the grant. Do not file this list with your return. Do not include these grants in line 15.

NONE

TORREY PINES INSTITUTE FOR MOLECULAR

Part V Private School Questionnaire (See page 7 of the instructions)

N/A

(To be completed ONLY by schools that checked the box on line 6 in Part IV)

		Yes	No
29	Does the organization have a racially nondiscriminatory policy toward students by statement in its charter, bylaws, other governing instrument, or in a resolution of its governing body?		
30	Does the organization include a statement of its racially nondiscriminatory policy toward students in all its brochures, catalogues, and other written communications with the public dealing with student admissions, programs, and scholarships?		
31	Has the organization publicized its racially nondiscriminatory policy through newspaper or broadcast media during the period of solicitation for students, or during the registration period if it has no solicitation program, in a way that makes the policy known to all parts of the general community it serves? If "Yes," please describe, if "No," please explain (If you need more space, attach a separate statement)		
<hr/>			
<hr/>			
32	Does the organization maintain the following		
a	Records indicating the racial composition of the student body, faculty, and administrative staff?	32a	
b	Records documenting that scholarships and other financial assistance are awarded on a racially nondiscriminatory basis?	32b	
c	Copies of all catalogues, brochures, announcements, and other written communications to the public dealing with student admissions, programs, and scholarships?	32c	
d	Copies of all material used by the organization or on its behalf to solicit contributions? If you answered "No" to any of the above, please explain (If you need more space, attach a separate statement)	32d	
<hr/>			
33	Does the organization discriminate by race in any way with respect to		
a	Students' rights or privileges?	33a	
b	Admissions policies?	33b	
c	Employment of faculty or administrative staff?	33c	
d	Scholarships or other financial assistance?	33d	
e	Educational policies?	33e	
f	Use of facilities?	33f	
g	Athletic programs?	33g	
h	Other extracurricular activities? If you answered "Yes" to any of the above, please explain (If you need more space, attach a separate statement)	33h	
<hr/>			
<hr/>			
34 a	Does the organization receive any financial aid or assistance from a governmental agency?	34a	
b	Has the organization's right to such aid ever been revoked or suspended? If you answered "Yes" to either 34a or b, please explain using an attached statement	34b	
35	Does the organization certify that it has complied with the applicable requirements of sections 4 01 through 4 05 of Rev Proc 75-50, 1975-2 C B 587, covering racial nondiscrimination? If "No " attach an explanation	35	

Application for Extension of Time To File an Exempt Organization Return

▶ File a separate application for each return

- If you are filing for an **Automatic 3-Month Extension**, complete only **Part I** and check this box
- If you are filing for an **Additional (not automatic) 3-Month Extension**, complete only **Part II** (on page 2 of this form)

Note Do not complete Part II unless you have already been granted an automatic 3-month extension on a previously filed Form 8868

Part I Automatic 3-Month Extension of Time - Only submit original (no copies needed)

Note Form 990-T corporations requesting an automatic 6-month extension - check this box and complete Part I only
 All other corporations (including Form 990-C filers) must use Form 7004 to request an extension of time to file income tax returns. Partnerships, REMICs and trusts must use Form 8736 to request an extension of time to file Form 1065, 1066, or 1041

Type or print File by the due date for filing your return. See instructions	Name of Exempt Organization TORREY PINES INSTITUTE FOR MOLECULAR STUDIES, INC.	Employer identification number 33-0319501
	Number, street, and room or suite no. If a P O box, see instructions 3550 GENERAL ATOMICS COURT	
	City, town or post office, state, and ZIP code. For a foreign address, see instructions SAN DIEGO, CA 92121	

Check type of return to be filed (file a separate application for each return)

93A SCIENTIFIC RESEARCH IN THE PUBLIC INTEREST CARRIED ON FOR THE PURPOSE OF OBTAINING SCIENTIFIC INFORMATION THAT IS WIDELY AVAILABLE TO THE PUBLIC. THE RESEARCHERS AT TORREY PINES INSTITUTE FOR MOLECULAR STUDIES SUBMITTED OR PUBLISHED A TOTAL OF 50 PAPERS OF SCIENTIFIC SIGNIFICANCE DURING THE YEAR. THE SAME RESEARCHERS MADE 20 ORAL PRESENTATIONS AND AN ADDITIONAL 20 POSTER PRESENTATIONS AT NATIONAL AND INTERNATIONAL SCIENTIFIC MEETINGS. TOPICS INCLUDED PEPTIDE STRUCTURES AND THEIR EFFECTS ON BIOLOGICAL ACTIVITIES, THE SYNTHESIS OF NOVEL PEPTIDE AND PEPTIDOMIMETIC AND SMALL MOLECULE COMBINATORIAL LIBRARIES, AND THE USE OF THESE LIBRARIES FOR RESEARCH IN IMMUNOCHEMISTRY, MICROBIOLOGY, NEUROENDOCRINOLOGY AND ENZYMOLOGY. THESE LIBRARIES WERE ALSO USED IN RESEARCH RELATED TO PAIN MANAGEMENT, CANCER THERAPEUTICS, MULTIPLE SCLEROSIS, ALZHEIMER'S, AND AIDS. WHILE THERE IS NO METHOD AVAILABLE FOR DETERMINING THE NUMBER OF PERSONS BENEFITTED, WE ESTIMATE THAT THOUSANDS OF SCIENTISTS ATTENDED THESE CONFERENCES AND READ THESE PUBLICATIONS, AND WE ASSUME THAT MANY OF THESE SCIENTITSTS NOW INCORPORATE PORTIONS OF OUR RESEARCH INTO THEIR OWN WORK.

**TORREY PINES INSTITUTE FOR MOLECULAR STUDIES
FORM 990, PART III**

**33-0319501
STATEMENT 14**

Our exempt purpose is to conduct biomedical research directed towards the improvement of human health, and to make the results available to other scientists and the general public. During the past year, scientists at Torrey Pines Institute for Molecular Studies authored over fifty (50) publications which appeared in scientific journals distributed worldwide, made over twenty (20) oral presentations of their research results at scientific meetings all over the world, and delivered over twenty (20) poster presentations at these same meetings. The scientific conferences at which we present our research results typically attract anywhere from hundreds to thousands of scientists, medical professionals, medical students, postdoctoral research fellows in training, graduate and undergraduate science students. Still thousands more have access to the publications which originate from our Institute, and thousands more access our websites for information relating to the various diseases we study. We also have hundreds of ongoing collaborations with scientists throughout the world. Following are the descriptions of the specific program service accomplishments for our fiscal year ending June 30, 2002.

a MULTIPLE SCLEROSIS The division of our Institute which is dedicated to the study of this disease is Multiple Sclerosis National Research Institute (the "MS Institute"). The MS Institute researchers have had an extremely exciting and productive year in their search for finding new treatments, and even vaccines, to fight this crippling disease. Ongoing research at the MS Institute includes the study of Copaxone®, a commercial drug used for the treatment of patients with Multiple Sclerosis (MS). It is not completely known how the drug works, but with the help of the National Institute of Neurological Disorders and Stroke at the National Institutes of Health, we are evaluating the drug and trying to identify new compounds that are just as good or better. Through this collaboration, we have access to MS patients, and we hope that our work will soon lead to clinical trials. Other research at the MS Institute focuses on repairing the damage to the central nervous system caused by MS, stroke or trauma. By identifying genes that regulate the development of stem cells into all neural cell types, we hope to identify mechanisms controlled by these genes to reveal potential targets for therapeutic intervention. The next step in the study will be to screen small molecules for drug candidates that will direct stem cell differentiation towards particular mature cell types needed for tissue restoration. Still another area of research is directed towards the study of T cells, in hopes of finding a vaccine for MS. This work has been supported by the very generous donations from individuals via workplace campaigns, such as the Combined Federal Campaign, United Way and Share America. We also have grants from the National Institutes of Health to help fund this research.

\$1,258,091

b CANCER VACCINES Instead of the standard treatments for cancer (surgery, chemotherapy and radiation), scientists at our Institute believe that with the identification of new compounds, they can use the power of the body's immune system to combat cancer. Our scientific approach is being used on melanoma, breast cancer, Multiple Sclerosis and Lyme disease. Our cancer research is well known and we have established cooperative research partnerships with scientists at other institutions from all over the world. We are funded by grants received from the National Cancer Institute and contracts with biotechnology companies.

\$1,184,211

c DIABETES According to the National Institutes of Health, diabetes affects more than 16,000,000 Americans every year. We support fundamental research to find treatments, possible cures, and vaccines for juvenile and type-II diabetes. "Free fatty acids" are molecules in our bodies that interact with proteins, membranes and cells of the immune system. We study the many ways that these molecules behave, including methods of measuring them in human blood. Besides diabetes, a number of diseases such as cancer, sepsis and ischemia, can result in changes in the levels of free fatty acid molecules in the blood. We believe that early detection of free fatty acid molecule levels in the blood can result in earlier detection of

STATEMENT 14

diabetes and other diseases This research is supported by the National Institutes of Health, Diabetes National Research Group, and donations made by individuals

\$774,864

d CHEMISTRY When Torrey Pines Institute for Molecular Studies began its research 13 years ago, the main focus of our research was in the area of chemistry Our research resulted in a new method of drug discovery called, "combinatorial chemistry", which is now being used by researchers worldwide to help find new drugs and diagnostics for diseases This group also supports all of the other research being conducted at our Institute by providing the "chemical libraries" needed for those groups in their search for vaccines, therapeutics, and diagnostic compounds Because of the methods invented and developed in our chemistry laboratories, we have been able to make significant progress in all of our research groups Research results have been presented to the public in hundreds of scientific journal articles and in scientific presentations worldwide We have trained many scientists in these methods not only in San Diego, but also across the United States and around the world We are supported in part by the National Institutes of Health and corporate research contracts

\$661,208

e INFECTIOUS DISEASE Antibiotic resistance has become overwhelmingly commonplace as more bacterial and viral strains adapt to current treatments and are becoming more difficult to cure Our research is focused on finding new compounds to fight bacteria, viruses, parasites and fungi Several compounds we have developed thus far are being investigated by a pharmaceutical company for further development Our hope is that eventually these compounds will play a major role in treatments for bacterial and fungal infections

Despite the efforts of thousands of researchers around the world, there is still no known cure for AIDS The most popular treatment for AIDS patients today is providing medication that helps prevent the virus that causes AIDS, HIV-1, from replicating itself inside the body We are screening different compounds to develop drugs to combat HIV-1 and possibly develop a vaccine

Through the study of "Langerhans cells" (cells that participate in an immune response in the skin and migrate to the lymph nodes), we are learning the process of how the body sends signals to other cells in the body following trauma When other cells in the lymph nodes read the signal, antigens (substances capable of inducing an immune response) are produced By studying this response, we hope to develop new methods for providing vaccines to people in underdeveloped countries

Funding for our research programs in infectious disease was provided by the National Institutes of Health, corporate contracts, and generous donations

\$643,561

f GENETICS Our genetics research has applications ranging from radiation trauma to bone marrow transplant therapy to immunology One group is studying how DNA repairs itself following trauma such as radiation exposure By understanding genes that control the numbers of stem cells in bone marrow, our scientists believe that they can improve the methods of today's bone marrow transplant therapy We are also collaborating with scientists from other institutions in the study to determine the genes in antibodies Our research in genetics is supported by the National Institutes Health

\$594,397

g HEART DISEASE Our research on treatments for heart disease includes detailed studies of compounds called enzymes and free-fatty acids The administration of one of these enzymes (t-PA) is currently the standard treatment of acute myocardial infarction, a major killer of both American men and women We are looking for new compounds which affect these enzymes, with the hope of eventually discovering new therapeutic treatments for heart disease We are also studying these enzymes as a

therapeutic tool for the prevention of restenosis (the renarrowing of a previously treated artery), a condition that occurs after a vascular procedure such as angioplasty. We are also involved in the study of "complement proteins", proteins that defend the body against infection. The goal of our research is to obtain molecular pictures of the series of interactions that occur among complement proteins during recognition and killing of foreign cells. Uncontrolled complement activation contributes to many chronic inflammatory conditions, such as heart attack, heart disease and rejection of non-human transplanted tissue. We are also working on a diagnostic procedure for use in emergency rooms, for the immediate determination of stroke vs myocardial infarction. This diagnostic has already been tested in a series of human trials, and is currently being further developed, with the likelihood of very promising results. The studies were funded by the National Institutes of Health.

\$512,119

h PAIN MANAGEMENT The goal of this research is to find an alternative to morphine for use in pain management in diseases such as arthritis or cancer. A common treatment in the use of pain, morphine has many deleterious side effects associated with its use. We have found several compounds that are being investigated by a pharmaceutical partner, with the hope of making chemical compounds into drugs that are effective pain relievers. Our research is supported by the National Institutes on Drug Abuse, Pain Management Research Institute of America, corporate contracts, and donations.

\$362,813

i OSTEOPOROSIS AND BREAST CANCER A study that is currently being done at TPIMS will determine if breast cancer, by altering normal levels of free fatty acids (FFA), prevents the body's immune system from destroying the tumor. If our hypothesis is supported by the results of this study, a new approach to treating breast cancer would be available. By testing the levels of FFA needed to block the body's immune system and measuring FFA levels from human breast cancer tissue, we will determine if this fluid is actually preventing the body of killing cancer cells. In another study, we are combining the technologies of T-cell immunobiology and synthetic peptide chemistry to identify antigens that can be used for therapeutic vaccines for metastatic breast and ovarian cancers. This research is funded by the United States Army, the National Cancer Institute, Osteoporosis and Breast Cancer Research Center, and donations.

\$144,150

**ACTIVITIES WITH DIRECTORS, TRUSTEES, PRINCIPAL
OFFICERS, OR CREATORS**
