## **WORKBOUND, INC. DESCRIPTION OF SERVICES**

Through an educational program that is combined with support from parents, teachers, employers and community resource people, all students can receive the education necessary to help them focus on their future. Academic, cultural, physical, social, and vocational education is essential to begin a career in the world of work. This is true for all students whether they begin a career directly out of high school or following college.

The skills needed by those entering the world of work have changed with the advent of a global market and economy and with ever increasing technology. These changes have made the traditional abilities obsolete. All students need academic, general, and vocational classes. The workforce for the future must be made up of people who are able to work with their heads and hands. They must be able to think and do in the world of work.

Workbound involves students, parents or significant adults, teachers, and the business community working together. Students enter the Workbound program on a voluntary basis; involvement in Workbound is not based on academic performance or financial position. Students become involved during their junior year in high school. The students choose one or two careers that interest them. Community business people in that particular field are then selected to work with the student, bringing them into the business environment so the student can receive first hand experience of the desired career. Guidance is given as to the options available to the student to achieve the desired career, along with the advantages and disadvantages of each option.

Follow up studies are being done on each student completing the Workbound program to determine the strengths and weaknesses of the program and the success the program has.

Over 135 students were involved with the program during the 2002-2003 school year.
