If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

Form and Line Reference	Explanation
SUPPLEMENTAL INFORMATION 5	<p>PART V, SECTION B, LINE 7 THE CHNA PROCESS ASSISTED IN DETERMINING AVAILABLE RESOURCES, GAPS IN SERVICES, AND BOTH PERCEIVED AND ACTUAL NEEDS WITHIN THE INTEGRIS SERVICE AREAS. MANY OF THE NEEDS IDENTIFIED WERE COMMON WITHIN THE VARIOUS SERVICE AREAS, INCLUDING HEART DISEASE, DIABETES, TOBACCO USE, OBESITY, MENTAL HEALTH AND SUBSTANCE ABUSE. OTHERS, HOWEVER, SUCH AS CHILD ABUSE AND TEEN PREGNANCY, WERE NOT AS PREDOMINANT. THE NEEDS IDENTIFIED BY THE CHNA WERE INITIALLY PRIORITIZED THROUGH COLLABORATION WITH THE LOCAL COMMUNITY COALITIONS. THESE LOCAL PRIORITIZED NEEDS WERE THEN REEXAMINED BY INTEGRIS TO DETERMINE WHICH NEEDS COULD MOST EFFECTIVELY BE IMPACTED BY INTEGRIS THROUGH ADMINISTRATION OF THE DEVELOPED CHIP AND WHICH, IF ANY OF THE REMAINING, WERE CURRENTLY BEING ADDRESSED THROUGH OTHER COMMUNITY RESOURCES AND/OR SERVICES. INTEGRIS OPTED TO CONCENTRATE ON THE SAME THREE FOCUS AREAS FOR THE CHIPS IN EACH OF THE SERVICE AREAS-HEART DISEASE, MENTAL HEALTH, AND OBESITY-BELIEVING THAT A UNITED EFFORT WOULD ALLOW FOR A SHARING OF RESOURCES, PERSONNEL, PROGRAMS, ETC AND ENSURE CONSISTENCY IN IMPLEMENTATION AND EVALUATION METHODS, THEREBY INCREASING THE POTENTIAL TO MORE EFFECTIVELY COMBAT THE ISSUES SYSTEM-WIDE. OTHER COMMONLY IDENTIFIED NEEDS SUCH AS DIABETES, TOBACCO USE, AND SUBSTANCE ABUSE THAT ARE ASSOCIATED RISK FACTORS FOR THE PRIMARY FOCUS AREAS ARE ADDRESSED IN ONE OR MORE OF THOSE RESPECTIVE SECTIONS OF THE CHIP. IT WAS DETERMINED THAT THE REMAINING NEEDS THAT WERE HIGHLY PRIORITIZED WITHIN CERTAIN SERVICE AREAS WERE PREVIOUSLY IDENTIFIED AND ALREADY BEING ADDRESSED THROUGH LOCAL AGENCY AND/OR COALITION AND PARTNERSHIP EFFORTS WITHIN THE COMMUNITIES. AS SUCH, INTEGRIS COMMITTED TO PROVIDE SUPPORT AND RESOURCES TO THE COMMUNITY PARTNERS TAKING THE LEAD ON THOSE PARTICULAR ISSUES.</p>

SUPPLEMENTAL INFORMATION 1	SCHEDULE J, PART 1, LINE 3 INTEGRIS BAPTIST MEDICAL CENTER, INC (IBMC) IS A MEMBER OF AN INTEGRATED HEALTHCARE SYSTEM CONTROLLED BY INTEGRIS HEALTH, INC (INTEGRIS) AS PART OF THIS SYSTEM, IBMC RELIES UPON INTEGRIS TO ESTABLISH THE COMPENSATION FOR ITS TOP MANAGEMENT OFFICIALS. INTEGRIS UTILIZES A COMPENSATION COMMITTEE, INDEPENDENT COMPENSATION CONSULTANT, COMPENSATION SURVEY OR STUDY, AND APPROVAL BY THE BOARD OR COMPENSATION COMMITTEE TO ESTABLISH THIS COMPENSATION.
SUPPLEMENTAL INFORMATION 2	SCHEDULE J, PART I, LINE 4B THE FILING ORGANIZATION IS A MEMBER OF AN INTEGRATED HEALTHCARE SYSTEM CONTROLLED BY INTEGRIS HEALTH, INC (INTEGRIS). INTEGRIS PROVIDES TO CERTAIN EXECUTIVES A SUPPLEMENTAL EXECUTIVE RETIREMENT PLAN. THE PURPOSE OF THE PLAN IS TO SUPPLEMENT THE SPONSOR-PROVIDED RETIREMENT BENEFITS TO BE PAID TO SENIOR EXECUTIVES PURSUANT TO THE DEFINED BENEFIT PENSION PLAN, THE TAX DEFERRED ANNUITY PLAN AND OTHER QUALIFIED OR NON QUALIFIED RETIREMENT PLANS WHICH ARE MAINTAINED BY THE SPONSOR. THE PLAN PROVIDES AN OPPORTUNITY TO EARN SUPPLEMENTAL INCENTIVE INCOME BY PROVIDING ANNUAL CONTRIBUTIONS TO THE ACCOUNT SO LONG AS THE EXECUTIVE REMAINS EMPLOYED BY THE SPONSOR TO RETIREMENT AGE OF 65. THE FOLLOWING INDIVIDUALS LISTED IN PART VII OF FORM 990 PARTICIPATED IN THIS PLAN BUT DID NOT RECEIVE A PAYMENT DURING THE YEAR: CHRIS M. HAMMES, C. BRUCE LAWRENCE, WENTZ MILLER, BETH A. PAUCHNIK.
SUPPLEMENTAL INFORMATION 3	SCHEDULE J, PART I, LINE 7 THE FILING ORGANIZATION IS A MEMBER OF AN INTEGRATED HEALTHCARE SYSTEM CONTROLLED BY INTEGRIS HEALTH, INC (INTEGRIS). INTEGRIS HEALTH HAS ESTABLISHED A FINANCIAL INCENTIVE PLAN THAT ENCOURAGES THE EXECUTIVE OFFICER'S PARTICIPATION IN THE SIGNIFICANT IMPROVEMENTS OF THE QUALITY AND FINANCIAL OPERATIONS OF THE ORGANIZATION. THE QUALITY COMPONENT IS DEFINED AS IMPROVEMENT IN PATIENT SAFETY, PATIENT SATISFACTION AND REDUCTION OF EMPLOYEE TURNOVER. THE FINANCIAL COMPONENT CONSISTS OF ACHIEVEMENT IN NET OPERATING INCOME THRESHOLD TO BE ACHIEVED TO ACTIVATE THE PLAN. A PREDETERMINED THRESHOLD IS CREATED WITHIN ALL ASPECTS OF THE PLAN BEFORE FINANCIAL ACHIEVEMENT IS PAYABLE. ALL PLANS ARE WRITTEN ACCORDING TO EXECUTIVE LEVEL AND ADOPTED BY INTEGRIS HEALTH BOARD RESOLUTION EACH PLAN YEAR AND PAYABLE AFTER INDEPENDENT AUDIT RESULTS ARE DETERMINED. IN THE SECOND PLAN, CERTAIN EMPLOYED PHYSICIANS ARE ELIGIBLE TO RECEIVE INCENTIVE COMPENSATION PURSUANT TO THEIR WRITTEN EMPLOYMENT AGREEMENTS. ALL INCENTIVE COMPENSATION IS SUBJECT TO A CAP AND DOES NOT EXCEED 50% OF THE PHYSICIAN'S TOTAL COMPENSATION. THERE ARE A VARIETY OF METHODS USED TO CALCULATE INCENTIVE COMPENSATION BASED ON THE PHYSICIAN'S PERSONAL PRODUCTION, RANGING FROM (I) A SPECIFIED PERCENTAGE OF NET INCOME LESS EXPENSES, (II) A SPECIFIED PERCENTAGE OF TOTAL COLLECTIONS LESS EXPENSES, (III) A SPECIFIED PERCENTAGE OF BASE SALARY BASED COMPLIANCE WITH CERTAIN QUALITY, PATIENT SATISFACTION, PRODUCTION AND FINANCIAL INDICATORS, (IV) A SPECIFIED PERCENTAGE OF BASE SALARY BASED ON COMPLIANCE WITH QUALITY, GUIDING VALUES, PATIENT SATISFACTION AND PRODUCTRION CRITERIA, (V) A SPECIFIED PERCENTAGE OF FEE-BASED COLLECTIONS AND CAPITATION COLLECTIONS, IF APPLICABLE, IN EXCESS OF QUARTERLY SALARY, (VI) QUARTERLY BONUSES MEASURED BY RVUS THAT EXCEED A SPECIFIED TARGET PER QUARTER, AND (VII) PRO RATA SHARE OF ANNUAL INCENTIVE POOLS BASED UPON PRODUCTION, COMPLIANCE WITH CLINICAL GUIDELINES, QUALITY AND PATIENT SATISFACTION CRITERIA.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of INTEGRIS *Health*, Inc. and controlled entities as of June 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

***Other Matter***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information included in Schedules 1 and 2 is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(1) Organization and Summary of Significant Accounting Policies**

**(a) Organization and Nature of Business**

INTEGRIS Health, Inc. and its controlled entities (INTEGRIS Health) operate an integrated delivery system, which provides a wide variety of healthcare services in the state of Oklahoma. INTEGRIS Health, except for INTEGRIS ProHealth, Inc. and subsidiaries (PHI), INTEGRIS Cardiovascular Physicians, and INTEGRIS Health Partners, are not-for-profit private corporations as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code.

Significant controlled entities include INTEGRIS Baptist Medical Center, Inc. (IBMC), INTEGRIS South Oklahoma City Hospital Corporation d/b/a INTEGRIS Southwest Medical Center, Inc. (ISOCHC), Baptist Healthcare of Oklahoma, Inc. (BHO), and INTEGRIS Rural Health, Inc. (IRH). IBMC operates a licensed 629-bed healthcare facility in northwest Oklahoma City, ISOCHC operates a licensed 389-bed facility in south Oklahoma City, BHO leased and managed hospitals throughout the state of Oklahoma, and IRH owns INTEGRIS Baptist Regional Health Center, Miami, Oklahoma; INTEGRIS Bass Baptist Health Center, Enid, Oklahoma; INTEGRIS Grove Hospital, Grove, Oklahoma; and INTEGRIS Canadian Valley Hospital, Yukon, Oklahoma.

On January 1, 2013, INTEGRIS Ambulatory Care Corporation, a wholly owned subsidiary of INTEGRIS Health, acquired 75% ownership of Lakeside Women's Hospital LLC, a 23 bed women's specialty hospital located in Oklahoma City, for approximately \$16.4 million.

**(b) Basis of Presentation**

The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP).

**(c) Use of Estimates**

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates for INTEGRIS include malpractice and liability costs, pension benefit obligation, valuation of interest rate swaps, and valuation of accounts receivable.

**(d) Principles of Consolidation**

The consolidated financial statements include the accounts of the following controlled entities:

- IBMC and subsidiaries
- ISOCHC
- IRH
- BHO

**(e) *Cash and Cash Equivalents***

Cash and cash equivalents include demand deposits, short-term overnight investments, and other investments with original maturities at the date of purchase of three months or less. The majority of cash and cash equivalents are on deposit with one financial institution.

**(f) *Short-Term Investments***

Short-term investments are stated at fair value and consist primarily of investments in cash and cash equivalents, U.S. government and agency obligations, and corporate obligations.

**(g) *Donor-Restricted Gifts***

Unconditional promises to give cash and other assets to INTEGRIS *Health* and its tax-exempt controlled affiliates are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the accompanying consolidated statements of operations and changes in net assets as net assets released from restrictions and other operating revenue.

**(h) *Temporarily and Permanently Restricted Net Assets***

Temporarily restricted net assets are those whose use by INTEGRIS *Health* and its tax-exempt controlled affiliates have been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by INTEGRIS *Health* and its tax-exempt controlled affiliates in perpetuity.

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(i) Net Income**

The consolidated statements of operations and changes in net assets include net income. Changes in unrestricted net assets, which are excluded from net income, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and other items required by U.S. GAAP to be reported separately.

**(j) Net Patient Service Revenue and Accounts Receivable**

Net patient service revenue is recorded at established rates, net of contractual adjustments, charity care adjustments, administrative adjustments, and net patient bad debt. Retroactively calculated contractual adjustments arising under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered. Adjustments to estimates in future periods are recorded as final settlements are determined or as additional information becomes available.

Net patient service revenue in the accompanying consolidated statements of operations and changes in net assets has been reduced by amounts resulting from contractual allowances related to the participation in Medicare, Medicaid, discount arrangements, and other prospective reimbursement programs as follows:

	<b>2014</b>	<b>2013</b>
Patient service revenue (net of contractual allowances and discounts, before provision for bad debt, in thousands):		
Medicare	\$ 345,732	340,665
Medicaid	162,672	143,178
Managed care	681,473	601,702
Commercial and other	106,313	157,416
Private pay	110,623	123,757
	<b>\$ 1,406,813</b>	<b>1,366,718</b>

Accounts receivable are recorded net of an allowance for uncollectible accounts and contractual adjustments of approximately \$470,709,000 and \$455,870,000 at June 30, 2014 and 2013, respectively. Although INTEGRIS Health estimates uncollectible accounts on a reasonable basis, the net patient accounts receivable balance is subject to an accounting loss if patients and third-party payors are unable to meet their contractual obligations.

The allowance and resulting provision for bad debts is based upon a combination of the aging of receivables and management's assessment of historical and expected net collections considering business and economic conditions, trends in healthcare coverage, and other collection indicators. Management assesses the adequacy of the allowance for doubtful accounts based upon historical

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

write-off experience and payment trends by payor category. Patient accounts are also monitored, and, if necessary, past due accounts are placed with collection agencies in accordance with guidelines established by INTEGRIS Health. All patient balances regardless of payor source are collected in accordance with a predefined time limited process designed to give the patient an opportunity to pay the balance before writing off the balance to bad debt expense and turning the account over to a collection agency.

For receivables associated with services provided to patients who have third-party coverage, INTEGRIS Health analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debt, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which include both patients without insurance and patients with deductible and copayment balance due for which third-party coverage exists for part of the bill), INTEGRIS Health records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the billed rates (which are discounted from gross charges for all uninsured self-pay patients by 62% in 2014 and 55% in 2013 as discussed below) and the amounts actually collected after all reasonable collection efforts have been exhausted is written off against the allowance for doubtful accounts.

The Internal Revenue Service issued new 501(r) guidance for nonprofit hospitals recently. Section 501(r) was enacted by the Patient Protection and Affordable Care Act. Hospital organizations covered by Section 501(r) may not charge an individual eligible for a financial assistance policy more than the amount generally billed to individuals with insurance covering their healthcare. As a result of this guidance, INTEGRIS Health implemented a policy effective July 1, 2011 that discounts all private pay patient charges by 55%. This adjustment is considered a contractual adjustment rather than a bad debt adjustment; therefore, the 55% adjustment is recorded as a direct reduction to net patient service revenue instead of bad debt. This change resulted in less charges being written off to the provision for uncollectible accounts. As of July 1, 2013, this private pay adjustment was increased to 62% of patient charges.

INTEGRIS Health's allowance for doubtful accounts for self-pay patients was 98.6% of self-pay accounts receivable at June 30, 2014 and June 30, 2013. Negative trends experienced in the collection of amounts from self-pay patients continued in fiscal year 2014 and have kept this allowance rate high. INTEGRIS Health does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors other than for contractual allowances.

**(k) Charity Care**

Certain of the healthcare related controlled entities provide care without charge to patients who meet certain criteria under INTEGRIS Health's charity care policy. Because these entities do not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net revenue or included in net accounts receivable in the accompanying consolidated financial statements.

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(l) *Electronic Health Record Incentive Payment Program***

The American Recovery and Reinvestment Act of 2009 established incentive payments under the Medicare and Medicaid programs for hospitals that meaningfully use certified electronic health record (EHR) technology. In order to qualify for the Act's Stage One reporting period, a hospital must meet certain designated EHR meaningful use criteria from both mandatory and optionally selected requirements for ninety consecutive days within the Act's reporting year. During 2014, INTEGRIS Health's eligible hospitals and physicians received approximately \$11,650,000 of reimbursement payments under the Act's Stage One reporting period. The payments were recorded as other operating revenue in the accompanying consolidated statements of operations and changes in net assets for the year ended June 30, 2014.

INTEGRIS Health has elected to apply the grant accounting guidance in International Accounting Standards (IAS) 20 to these incentive payments. IAS 20 does not allow incentive payments to be recognized as income until there is reasonable assurance that the entity will successfully demonstrate compliance with the minimum number of meaningful use objectives. INTEGRIS Health's management believes the relevant criteria were met for Stage One reporting and determined compliance was reasonably assured.

**(m) *Assets Whose Use Is Limited and Investment Income***

Assets whose use is limited includes assets designated by the board of directors for future capital improvements, self-insurance programs, debt service requirements, and other general purposes, over which the board retains control and may, at its discretion, subsequently use for other purposes; assets restricted by trustee under bond indenture agreement; and assets restricted by donors as to use. Marketable equity securities with readily determinable fair values and all debt securities are recorded at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities. Realized and unrealized gains and losses on investments are determined by comparison of the actual cost of the proceeds at the time of disposition, or market values as of the end of the financial statement period. The cost of securities sold is based on the specific identification method.

Investment income, including income on assets whose use is limited and income on short-term investments, is reported as nonoperating revenue, net of certain interest expense of approximately \$12,904,000 and \$12,759,000 in 2014 and 2013, respectively. Investment income includes the loss from the change in fair value of interest rate swaps described in note 1(q) of approximately \$81,000 in 2014 and the gain of \$28,938,000 in 2013. All investments are classified as trading securities, and the change in unrealized gains and losses on investments is included in the determination of net income.

INTEGRIS Health invests in various securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonable to assume that changes in the values of investment securities will occur in the near term and that such changes could be material to the accompanying consolidated financial statements.

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(n) Inventories**

Inventories consist of pharmaceuticals, dietary, and medical supplies and are valued at the lower of cost (first-in, first-out) or market.

**(o) Property and Equipment**

Property and equipment are recorded at cost or, if donated, at fair value on the date of receipt. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method. Assets under capital leases are amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the assets. Such amortization is included in depreciation and amortization in the consolidated financial statements. Expenditures that increase values, change capacities, or extend useful lives of assets are capitalized. Interest costs are capitalized for construction projects that require a period of time to ready them for their intended use. Routine maintenance, repairs, and renewals are charged to operations.

Long-lived assets, such as property, plant, and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, INTEGRIS Health first compares undiscounted cash flows expected to be generated by an asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent that the carrying value exceeds its fair value. Fair value is determined through various valuation techniques including discounted cash flow models, quoted market values, and third-party independent appraisals, as considered necessary.

**(p) Other Assets**

Interests in earnings and losses, dividends, and contributions to affiliates not controlled by INTEGRIS Health are accounted for using the equity method. These investments are included in other assets.

Debt offering costs, which are included in other assets, are amortized using the straight-line method over the life of the related debt, which does not vary materially from the interest method. Amortization expense on debt offering costs of approximately \$311,000 and \$362,000 was recognized during 2014 and 2013, respectively.

**(q) Derivative Instruments and Hedging Activities**

INTEGRIS Health uses interest rate swap agreements to manage interest rate risk and accounts for derivative instruments utilized in connection with these activities at fair value. The accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, if so, the reason for holding it. For hedges of exposure to changes in fair value, the gain or loss on the derivative instrument is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. For hedges of exposure to changes in cash flow, the effective portion of the gain or loss on the derivative instrument is reported initially as a component of other changes in net assets and is subsequently reclassified into earnings when the forecasted transaction affects earnings. Any

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

ineffectiveness of designated hedges is reported in earnings. If the derivative instrument does not qualify or is not designated as part of a hedging relationship, INTEGRIS *Health* accounts for changes in fair value of the derivative in earnings as they occur.

To qualify as a hedge, the hedge relationship is designated and formally documented at inception detailing the particular risk management objective and strategy for the hedge, which includes the item and risk that is being hedged, the derivative that is being used, as well as how effectiveness is being assessed. A derivative must be highly effective in accomplishing the objective of offsetting either changes in fair value or cash flows for the risk being hedged. The effectiveness of these hedging relationships is evaluated on a retrospective and prospective basis using quantitative measures of correlation. If a hedge relationship is found to be ineffective, it no longer qualifies as a hedge and any excess gains or losses attributable to such ineffectiveness, as well as subsequent changes in fair value, are recognized in earnings.

None of INTEGRIS *Health*'s interest rate swaps are designated as hedges, and all changes in fair value are recorded as an increase or decrease in investment income. The unrealized loss recognized for the year ended June 30, 2014 was approximately \$81,000 and an unrealized gain was recognized for the year ended June 30, 2013 of \$28,938,000. The difference between the fixed rate paid and the floating rate received is recognized as an increase or decrease in investment income.

By using derivative financial instruments to hedge exposures to changes in interest rates, INTEGRIS *Health* exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes INTEGRIS *Health*. When the fair value of the derivative contract is negative, INTEGRIS *Health* owes the counterparty, and, therefore, INTEGRIS *Health* is not exposed to the counterparty's credit risk in these circumstances. INTEGRIS *Health* minimizes counterparty credit risk in derivative instruments by entering into transactions with high-quality counterparties.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

INTEGRIS *Health* does not enter into derivative instruments for any purpose other than to manage interest rate risk. INTEGRIS *Health* does not speculate using derivative instruments.

**(r) Asset Retirement Obligations**

INTEGRIS *Health* recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which the obligation is incurred, if a reasonable estimate of the fair value of the obligation can be made. Uncertainty about the timing and (or) method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. When the liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long-lived asset. The liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligation is depreciated over the useful life of the related asset. Upon settlement of the obligation, any difference

Notes to Consolidated Financial Statements

between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the accompanying consolidated statements of operations and changes in net assets.

The liability for the asset retirement obligation is approximately \$3,897,000 and \$4,138,000 and the future value of the asset retirement obligation is approximately \$5,822,000 and \$6,340,000 as of June 30, 2014 and 2013, respectively. Substantially all of the obligation relates to estimated costs to remove asbestos and underground storage tanks from various facilities. Changes from June 30, 2013 are primarily due to remediation activities, changes in inflation rates, and revisions to estimates of the amount of asbestos at specific facilities.

**(s) Pension and Other Postretirement Plans**

INTEGRIS Health has a defined benefit pension plan (the Pension Plan) covering certain eligible employees and employees of controlled entities and affiliates upon their retirement. Eligible employees include those over 21 years of age who have attained at least 1,000 hours of service. The benefits are based on the employee's years of service and compensation. INTEGRIS Health also offers eligible employees of INTEGRIS Health and controlled entities and affiliates certain postretirement healthcare and life insurance benefits.

INTEGRIS Health records annual amounts relating to its pension and postretirement plans based on calculations that incorporate various actuarial and other assumptions, including discount rates, mortality, assumed rates of return, compensation increases, turnover rates, and healthcare cost trend rates. INTEGRIS Health reviews its assumptions on an annual basis and makes modifications to the assumptions based on current rates and trends when it is appropriate to do so. The effect of modifications to those assumptions is recorded in unrestricted net assets and amortized to net periodic cost over future periods using the corridor method. INTEGRIS Health believes that the assumptions utilized in recording its obligations under its plans are reasonable based on its experience and market conditions.

The funded status reported on the consolidated balance sheet as of June 30, 2014 and 2013 was measured as the difference between the fair value of the plan assets and the benefit obligation on a plan-by-plan basis. The net periodic costs are recognized as employees render the services necessary to earn the postretirement benefits.

Beginning July 1, 2009, the Pension Plan was closed to new participants. Employees hired or rehired on or after July 1, 2009, will receive an additional contribution to their Retirement Savings Plan account. Similar to the cash balance contribution under the Retirement Plan, the new INTEGRIS Health Basic Contribution is equal to 3% of pay for the first ten years of service and 4% of pay thereafter, based on years of vesting service. In order to qualify for this annual contribution the employee must work at least 1,000 hours in the fiscal year and is an active employee on the last day of the fiscal year. Participants are responsible for directing the investment of the funds, using the investment fund options offered in the Retirement Savings Plan.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Based on the funded status of the Pension Plan, for the plan years beginning July 1, 2011 and 2012, the Pension Plan became subject to restrictions imposed by Section 206 (g)(3)(c) of ERISA and Section 436 (d)(3) of the Code, which places restrictions on the Pension Plan related to prohibited payments and liabilities.

As of January 1, 2013, the Pension Plan was frozen. All employees now receive the INTEGRIS Health basic contribution in the Retirement Savings Plan. For the Pension Plan, vesting service and credited service for the purposes of calculating the rule of 85 eligibility continue.

**(t) Reclassifications**

Certain prior year amounts have been reclassified to conform to the current year presentation.

**(u) Recent Accounting Pronouncements**

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for INTEGRIS Health on July 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method. INTEGRIS Health is evaluating the effect that ASU 2014-09 will have on its financial statements and related disclosures.

**(2) Fair Value of Financial Instruments**

*Cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and other, and employee compensation and related liabilities:* The carrying values reported in the consolidated balance sheets approximate their fair values because of the short maturity of these financial instruments.

*Short-term investments and assets whose use is limited and notes receivable:* These financial instruments are stated at fair value. Fair values for marketable equity and debt securities are based on quoted market prices for those or similar securities. The fair value of notes receivable approximates carrying value based on investment rates currently available with similar terms and average maturities.

*Long-term debt:* Fair values for these financial instruments are based on borrowing rates currently available with similar terms and average maturities which represent level 2 fair value measures. The carrying value of long-term debt at June 30, 2014 and 2013 is approximately \$442,914,000 and \$454,707,000, respectively, and the fair value is approximately \$460,260,000 and \$470,650,000, respectively.

*Interest rate swaps:* The interest rate swap agreements are carried at fair value, which is determined based on the difference between the fixed and estimated variable cash flows of the agreements adjusted for the risk of default. The fair value of all interest rate swaps as of June 30, 2014 and 2013 is approximately \$57,132,000 and \$57,051,000, respectively, and is presented in other long-term liabilities in the consolidated financial statements.

**(3) Net Patient Service Revenue and Premium Revenue**

The healthcare related controlled entities have agreements with third-party payors that provide for reimbursement at amounts different from their established rates. A summary of the basis of reimbursement with major third-party payors is as follows:

- Medicare: Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Medicare outpatient services are paid under an outpatient prospective payment system, similar to inpatient acute services. Psychiatric services and medical education costs related to Medicare beneficiaries are paid based upon a cost reimbursement methodology. The healthcare related controlled entities of INTEGRIS *Health* are reimbursed for cost reimbursable items at an interim rate with final settlement determined after submission of annual cost reports by the respective affiliates and audits by the Medicare fiscal intermediary.
- Medicaid: Inpatient services rendered to Medicaid program beneficiaries are reimbursed at a prospectively determined rate per discharge. INTEGRIS *Health* recognizes income from Medicaid for services provided by primary care physicians employed by INTEGRIS *Health*. The payments are received in return for services provided in the month of payment. INTEGRIS *Health* has no obligation to provide services after the month of payment and has no obligation to pay for services of other providers should the patient seek care from another party.
- Commercial Insurance: The healthcare related controlled entities have entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these arrangements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Medicare cost report settlements are estimated in the period services are provided to the program beneficiaries. These estimates are revised as needed until final settlement of the cost report. Laws and regulations governing the Medicare program are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Net patient service revenue for 2014 and 2013 includes approximately \$4,645,000 and \$3,470,000, respectively, of adjustments for estimated cost report settlements and final settlements.

The Supplemental Hospital Offset Payment Program (SHOPP) program was created and implemented by the State of Oklahoma in fiscal year 2012 for the purpose of assuring access to quality care for Oklahoma Medicaid members. The program is designed to assess Oklahoma hospitals, unless exempt, a supplemental hospital offset payment program fee. The collected fees are placed in pools and then allocated to hospitals as directed by legislation. The Oklahoma *Health* Care Authority (OHCA) does not guarantee that allocations will equal or exceed the amount of the supplemental hospital offset payment program fee paid by the hospital. The SHOPP program assessment rate is assessed on a calendar year basis. For calendar year 2013, the SHOPP assessment rate was 2.61% of net patient service revenue. For calendar year 2014, the SHOPP assessment rate is 2.95% of net patient service revenue. The total fee incurred in 2014 and 2013 was approximately \$30,298,000 and \$27,381,000, respectively, and is included in supplies and other expenses in

the consolidated statements of operations. The allocation from the pool in 2014 and 2013 was approximately \$62,419,000 and \$53,116,000, respectively, for all INTEGRIS Health facilities and is included in net patient service revenue in the consolidated statements of operations. The SHOPP program is expected to remain in effect through 2017.

All debt except for the Series 1997 bonds is secured by the revenues and receivables of the Obligated Group and the members of the Obligated Group are jointly and severally liable for the entire debt. The Obligated Group is comprised of IBMC, ISOCHC, and IRH. In connection with the various bonds, the Obligated Group must comply with financial covenants and other various covenants that may require, restrict, limit, or prohibit certain transactions or activities. As of June 30, 2014, management believes the Obligated Group was in compliance with all debt covenants. In addition, management believes INTEGRIS Health was in compliance with debt covenants on other outstanding indebtedness as of June 30, 2014. The Obligated Group represents approximately 94% and 96% of net assets and approximately 86% and 88% of total operating revenues of INTEGRIS Health as of and for the years ended June 30, 2014 and 2013, respectively.

**INTEGRIS HEALTH, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The Series 2007A-3, 2008A-1, 2008A-2, 2011A, and 2011B bonds are variable rate demand bonds. Accordingly, the bonds are subject to periodic mandatory tender and remarketing provisions. The interest rates at which the bonds are remarketed are determined in accordance with the respective remarketing agreements. With respect to the bonds supported by a SBPA, any principal balance that would require repayment within twelve months under the terms of the SBPA agreements is classified as current. In addition, credit enhancement on certain of these bonds is provided by municipal insurance policies. INTEGRIS Health's management believes that the lending institutions have the ability to meet their obligations, if necessary. The SBPA for the 2007A-3 expires in 2014 while the 2008A-1 and 2008A-2 expired in 2013. Upon expiration, the SBPA's may be renewed or replaced. As discussed below the 2008A-1 and 2008A-2 bonds were refunded upon the expiration of the associated SBPA's. In the event that the SBPA's are not renewed and the Obligated Group is unable to replace the facilities, the respective lending institutions must purchase the respective outstanding bonds and principal would be payable by the Obligated Group over a period of five years. The SBPA's also contain certain special default provisions that would result in immediate termination of the agreements requiring the Obligated Group to purchase any tendered bonds that are unable to be remarketed. Additionally, the bonds may be converted to fixed rate bonds by the Obligated Group, subject to certain terms. The interest rate at which the bonds may be converted to fixed rate bonds is to be determined in accordance with the remarketing agreement.

In May 2013, the Obligated Group issued the Series 2013A and Series 2013B Health System Revenue and Refunding Bonds of The Oklahoma Development Finance Authority in the amounts of \$48,990,000 and \$48,955,000, respectively. Proceeds of the 2013 Bonds were used to refund the Series 2008A-1 and Series 2008A-2 Bonds. The 2013 Bonds were purchased by a single financial institution in a direct, private placement transaction and will bear interest at variable rates of interest calculated monthly pursuant to a floating rate at a percentage of one month LIBOR plus a spread. The spread is based on the rating of the long-term debt of the Obligated Group. The 2013A Bonds are subject to a mandatory tender by the holder of the bonds at the end of seven years and the 2013B Bonds are subject to a mandatory tender by the holder of the bonds at the end of eight years, unless the holding period is renewed and extended by the bondholder. Upon a mandatory tender the Obligated Group will have the ability to convert to another interest rate mode (daily, weekly, term rate, flexible rate, or fixed rate) and remarket the 2013 Bonds. As a result of this transaction, the SBPA for the Series 2008A-1 and Series 2008A-2 bonds were terminated and the Series 2008A-1 and Series 2008A-2 bonds were classified in the 2013 consolidated balance sheet in accordance with the mandatory tender provisions in place under the remarketing agreement. The 2013A and 2013B bonds are classified in the accompanying consolidated balance sheet and the maturity table below in accordance with the mandatory tender provisions in place with the holder of the bonds.

During 1999, INTEGRIS Health entered into agreements whereby INTEGRIS Health agrees to receive variable market-indexed payments in exchange for fixed rate interest payments. The notional principal amount underlying these interest rate swaps at June 30, 2014 and 2013 was \$113,300,000 and \$114,200,000, respectively. The interest rate swaps mature in August 2029. The variable payment rates approximate 67% of the one-month USD-LIBOR-BBA. The fixed payment rate is 3.519%.

**(7) Noncontrolling Interests**

INTEGRIS *Health* controls and therefore consolidates certain investees in its partnerships and joint ventures with physicians and nonphysicians to operate hospitals and other health-related ventures. The activity for noncontrolling interest for the years ended June 30, 2014 and 2013 is summarized below (in thousands):

	<u>2014</u>	<u>2013</u>
Noncontrolling ownership interest in equity of consolidated affiliates, beginning of year	\$ 5,785	(130)
Revenue and gains in excess of expenses and losses attributable to noncontrolling interest	649	1,241
Grand Lake buyout	(108)	—
Lakeside acquisition	—	5,677
Distributions to noncontrolling interest holders	<u>(950)</u>	<u>(1,003)</u>
Noncontrolling ownership interest in equity of consolidated affiliates, end of year	<u>\$ 5,376</u>	<u>5,785</u>

**(8) Malpractice and Liability Costs**

INTEGRIS *Health* is involved in litigation arising in the ordinary course of business. Claims alleging malpractice have been asserted against INTEGRIS *Health* and are currently in various stages of litigation. Currently, there are varying insurance programs and arrangements in place.

Effective July 1, 1995, INTEGRIS *Health* formed Quality Alliance, a captive insurance company formed for the purpose of providing coverage to INTEGRIS *Health* and all of its controlled entities for medical malpractice and other liability risks. Quality Alliance charges premiums to the respective entities for coverage and accrues losses based on estimates that incorporate past experience as well as other considerations which are based on actuarial estimates from an independent third-party actuary. Adjustments to the liability based on subsequent developments or other changes in the estimate are reflected in the consolidated statements of operations and changes in net assets in the period in which such adjustments become known. Quality Alliance maintains reinsurance coverage to reduce exposure from significant individual and aggregate losses. INTEGRIS *Health* has an undiscounted accrued liability for estimated claims incurred of approximately \$90,288,000 and \$84,745,000 as of June 30, 2014 and 2013, respectively.

Claims arising from services provided to patients through June 30, 2014 and 2013 have been filed requesting damages in excess of insurance and the amount accrued for estimated malpractice costs. It is the opinion of management, however, after consulting with its legal counsel, insurance carrier, and actuary, that estimated costs to be incurred will be covered by professional liability insurance and the amount accrued for estimated malpractice costs. Due to the inherent uncertainties and subjectivity involved in accounting for contingencies, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

**(9) Pension and Postretirement Benefit Plans**

INTEGRIS *Health* has a defined benefit pension plan (the Pension Plan) covering certain eligible employees and employees of controlled entities and affiliates. Eligible employees include those over 21 years of age who have attained at least 1,000 hours of service. The benefits are based on the employee's years of service and compensation. Employees newly hired or rehired after July 1, 2009 were no longer able to access this plan. As of January 1, 2013, the Pension Plan was frozen.

INTEGRIS *Health*'s funding policy for the Pension Plan is to contribute at least the minimum amount necessary to satisfy the funding standards of the Employee Retirement Income Security Act of 1974, as amended. Contributions of approximately \$22,000,000 and \$25,704,000 were made in 2014 and 2013, respectively.

INTEGRIS *Health* also offers eligible employees of INTEGRIS *Health* and controlled entities and affiliates certain postretirement healthcare and life insurance benefits. INTEGRIS *Health*'s funding policy is to pay the benefits as they are incurred.

The following table sets forth the pension and postretirement benefit plan's benefit obligations, fair value of plan assets, and funded status as of June 30, 2014 and 2013 (in thousands):

	<u>Pension plan</u>		<u>Postretirement benefit plan</u>	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
Projected benefit obligation at June 30	\$ 572,571	526,790	3,594	3,333
Fair value of plan assets at June 30	392,130	332,561	—	—
Funded status	\$ <u>(180,441)</u>	<u>(194,229)</u>	<u>(3,594)</u>	<u>(3,333)</u>
Accrued benefit cost recognized in the balance sheet	\$ (180,441)	(194,229)	(3,541)	(3,333)

Net assets include approximately \$142,506,000 and \$138,548,000 related to the pension plan as of June 30, 2014 and 2013, respectively. The June 30, 2014 and 2013 amount is comprised of net actuarial loss of approximately \$142,506,000 and \$138,548,000, respectively, and prior service credits of approximately \$0 for both years. The net loss and prior service cost for the pension plan as of June 30, 2014 that will be amortized from net assets into net periodic benefit cost over the next fiscal year are approximately \$2,500,000. There was no net loss or prior service cost amortized during the year ended June 30, 2014.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Actuarial assumptions utilized for the plans are as follows:

	<b>Pension plan</b>		<b>Postretirement benefit plan</b>	
	<b>2014</b>	<b>2013</b>	<b>2014</b>	<b>2013</b>
Weighted average assumptions as of June 30 used to determine net periodic benefit cost:				
Discount rate	5.00%	4.52%/3.72%(1)	5.00%	4.52%
Expected long-term rate of return on plan assets	7.00	7.00	—	—
Rate of compensation increase	—	3.84	—	—

Weighted average assumptions as of June 30 used to determine the benefit obligation:				
Discount rate	4.53%	5.00%	4.53%	5.00%
Rate of compensation increase	—	3.84	—	—
Healthcare cost trend rate	—	—	8.50	8.50

(1) The discount rate was 4.52% from July 1, 2012 to October 31, 2012 and was 3.72% from November 1, 2012 to June 30, 2013.

The accumulated benefit obligation for the Pension Plan was approximately \$572,571,000 and \$526,790,000 at June 30, 2014 and 2013, respectively.

For measurement purposes, medical claims in 2015 are assumed to be 8.0% greater than medical claims for 2014. The trend is graded down so that medical claims in 2022 and later are assumed to be 4.5% greater than claims in the prior year.

Summary information for the plans is as follows:

The following tables present information about INTEGRIS *Health's* pension plan assets that are measured at fair value on a recurring basis as of June 30, 2014 and 2013 (in thousands). The table indicates the fair value hierarchy of the valuation techniques utilized to determine such fair values. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable, such as quoted prices, interest rates, and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

The weighted average asset allocation of INTEGRIS *Health*'s pension benefits at June 30, 2014 and 2013, by asset category are as follows:

Asset category:	<b>Plan assets at June 30</b>	
	<b>2014</b>	<b>2013</b>
Equity securities	53%	53%
Debt securities	30	34
Cash	2	2
Real estate	1	2
Master limited partnerships	14	9
	100%	100%

The Pension Plan is administered by a board appointed committee that maintains a well developed investment policy stating the guidelines for the performance and allocation of plan assets, performance review procedures, and updating the policy itself. The committee adheres to traditional capital market pricing theory, recognizing that over the long run the risk of owning equities should be rewarded with a somewhat greater return than available from fixed income investments. However, the committee also recognized that the avoidance of large risks is desirable and is willing to trade off certain higher return opportunities in order to preserve a lower risk investment profile. At least annually, the Pension Plan asset allocation guidelines are reviewed in respect to evolving risk and return expectations. Current guidelines permit the committee to manage the target allocation of funds between equities and debt securities at its discretion; however, based on evaluations conducted periodically, the committee has maintained a target allocation of assets in the range of 50%–70% equities and 30%–50% debt securities.

The long-term return forecasting methodology for both equity and fixed income securities is based on the capital asset pricing model using historical data supplied by Ibbotson Associates. Based on the historical range of target asset allocations and the historical rates of return for each asset class, the expected long-term rate of return of Pension Plan assets has ranged from 6.3%–8.6%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories.

INTEGRIS *Health* plans to contribute a minimum of \$12,504,000 to the plan during the upcoming year.

The expected benefits to be paid are as follows:

	<u>Pension plan</u>	<u>Postretirement benefit plan</u>
2015	\$ 18,399,000	265,000
2016	19,807,000	280,000
2017	21,282,000	287,000
2018	22,974,000	292,000
2019	24,449,000	294,000
2020 – 2024	141,914,000	1,417,000

The expected benefits are estimated based on the same assumptions used to measure the benefit obligations of INTEGRIS Health at June 30, 2014 and include benefits attributable to estimated future employee service.

**(10) Other Employee Benefit Plans**

INTEGRIS Health is self-insured for the purpose of providing medical and dental benefits to all eligible employees of INTEGRIS Health and affiliates through several plans. Eligible employees are allowed to select coverage through an affiliated preferred provider organization or a health maintenance organization. Claims and premiums under this plan are paid with funds provided by the operations of INTEGRIS Health as well as employee contributions. INTEGRIS Health has an accrued liability for estimated claims incurred of approximately \$4,932,000 and \$6,595,000 as of June 30, 2014 and 2013, respectively.

INTEGRIS Health is self-insured for workers' compensation for substantially all employees of INTEGRIS Health and affiliates through several plans. The accrued liability for estimated claims incurred is approximately \$13,380,000 and \$12,942,000 as of June 30, 2014 and 2013, respectively. INTEGRIS Health maintained an irrevocable letter of credit issued by a bank in favor of the Oklahoma Workers' Compensation Court (the Court) in the aggregate amount of \$5,400,000 through September 2013. Until then the letter of credit was required by the Court to allow INTEGRIS Health and affiliates to carry workers' compensation risk without insurance. Starting this year, the Court changed requirements and INTEGRIS was granted the ability to set up a Reserve Escrow account in the amount of \$6,000,000. In October 2013, such an account was set up with Bank of Oklahoma and the balance at June 30, 2014 was \$6,052,000. The court will re-evaluate the required reserve annually.

INTEGRIS Health and affiliates maintain stop-loss coverage on the self-insured programs to reduce exposure from significant losses.

INTEGRIS Health administers a retirement savings plan for its employees and employees of controlled entities and affiliates. Eligible employees may contribute pretax wages in accordance with the retirement savings plan. INTEGRIS Health and affiliates match certain contributions made by their employees. INTEGRIS Health also makes contributions on behalf of employees based on years of service (the INTEGRIS Health Basic Contributions). Contributions of approximately \$32,451,000 and \$20,579,000 were made by INTEGRIS Health in 2014 and 2013, respectively.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(11) Charity Care and Uncompensated Care and Community Benefits**

The healthcare related controlled entities provide care to patients who lack financial resources and are deemed medically or financially indigent. Because the healthcare related entities do not pursue collection of amounts determined to qualify as charity care, these amounts are removed from net patient service revenue. The charges related to this care, along with estimates for possible future charity care write-offs related to current accounts receivable, totaled approximately \$120,708,000 and \$106,679,000 in 2014 and 2013, respectively. The estimated direct and indirect cost of providing these services, calculated using the ratio of patient care cost to charges, was approximately \$32,353,000 and \$28,927,000 in 2014 and 2013, respectively. In addition, the healthcare related controlled entities provide services through government-sponsored indigent healthcare programs (such as Medicaid) to other indigent patients.

The healthcare related controlled entities also commit time and resources to endeavors and critical services which meet otherwise unfulfilled community needs. Many of these activities are entered into with the understanding that they will not be self-supporting or financially viable.

**(12) Concentration of Credit Risk**

INTEGRIS *Health* grants credit without collateral to patients, most of who are insured under third-party payor agreements. Gross outstanding Medicare and Medicaid payor receivables represented approximately 41% and 44% of total gross outstanding receivables at June 30, 2014 and 2013, respectively.

Through various legislative actions, Congress has mandated the Centers for Medicare and Medicaid Services (CMS) should phase out cost-based reimbursement in favor of prospective payment mechanisms. In the recent past this has been accomplished for most services that are provided by INTEGRIS *Health* facilities. Many of these changes had the effect of restraining net patient revenue growth. Reimbursement levels are often established for political rather than economic benefit. Based on previous trends, it is assumed that this situation should continue into the near future without major changes. This will continue to limit net patient revenue growth from these payor sources.

**(13) Federal Income Taxes**

INTEGRIS *Health* has certain subsidiaries and operations such as partnership interests, retail pharmacies, and outside laboratory services that are taxable for federal income tax purposes. The taxable activities of all includible entities have approximately \$6,049,100 and \$5,673,400 in net deferred tax assets, against which a 100% valuation allowance has been recorded, for the years ended June 30, 2014 and 2013, respectively.

**(14) Functional Expenses**

INTEGRIS *Health* and its controlled entities provide a variety of healthcare services. Expenses related to providing these services are as follows (in thousands) for the year ended June 30, 2014.

	<b>2014</b>	<b>2013</b>
Healthcare services	\$ 1,128,000	1,098,000
General and administrative	218,000	188,000
	\$ 1,346,000	1,286,000

**(15) Fair Value Disclosures**

The financial assets recorded at fair value on a recurring basis primarily relate to investments and assets limited as to use and derivatives. A fair value hierarchy is utilized that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The following tables present information about INTEGRIS *Health*'s assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2014 and 2013 (in thousands), and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable, such as quoted prices, interest rates, and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

**(16) Commitments and Contingencies**

As discussed in note 8, INTEGRIS *Health* and its controlled entities are involved in litigation associated with alleged malpractice and general liability claims, which arise out in the ordinary course of business. It is the opinion of management, upon consultation with legal counsel, that self-insurance reserves are sufficient to cover the related exposure, and that the outcome of these matters will not have a material adverse effect on INTEGRIS *Health*'s consolidated financial position or results of operations.

In the normal course of operations, INTEGRIS *Health* receives grants and other funding from the federal government. These activities are subject to audit by agents of the funding authority, the purpose of which is to ensure compliance with conditions precedent to providing of such funds. Management believes that the liability, if any, for any reimbursement that may arise as the result of grant audits, would not be material to the consolidated financial statements.

The U.S. Department of Justice and other federal agencies are increasing resources dedicated to regulatory investigations and compliance audits of healthcare providers. INTEGRIS *Health* is subject to these regulatory efforts. In consultation with legal counsel, management does not expect that the resolution of regulatory compliance matters will have a material adverse effect on INTEGRIS *Health*'s consolidated financial position or results of operations.

Certain controlled entities have projects to construct and expand facilities and purchase medical equipment, which are in various stages of completion. As of June 30, 2014 and 2013, the estimated remaining costs to complete these projects totaled approximately \$7,050,000 and \$7,505,000, respectively. These costs are expected to be incurred in future fiscal years.

Future minimum lease payments for all noncancelable leases with terms greater than one year are as follows (in thousands):

2015	\$	7,959
2016		6,376
2017		3,817
2018		3,118
2019		2,406
Thereafter		<u>1,993</u>
Total	\$	<u><u>25,669</u></u>

Operating lease expense approximated \$18,945,000 and \$19,285,000 in 2014 and 2013, respectively.

The Obligated Group has been notified by its Medical Administrative Contractor of a proposed reduction in its Medicare Disproportionate Share Program (DSH) payment for 2007, because of their objection to the inclusion of certain Medicaid days for residential psychiatric treatment services in the calculation of its DSH payment. A final determination has been deferred until CMS has ruled on a similar adjustment for an unrelated health system in Oklahoma. Management believes that the inclusion of such patient days in its cost reports is justified and will be sustained but, if not, it will vigorously pursue all available remedies.

**INTEGRIS *HEALTH*, INC.  
AND CONTROLLED ENTITIES**

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

However, if determined adversely, a portion of the DSH payments for fiscal years 2005-2014, inclusive, would be recoupable by CMS and, based on an average adjustment of \$13-15 million per year over the 10-year period, would result in a settlement payment and adjustment to the Obligated Group's earnings in the year of determination of approximately \$136 million. If determined adversely, INTEGRIS *Health* would be required to exclude certain Medicaid days related to the psychiatric treatment services in question going forward, which may, absent mitigating steps taken by management, have an impact on the Obligated Group's future financial results. Although the timing of a final determination by CMS is not known, management is developing contingency plans to mitigate the negative impact of a possible adverse determination.

**(17) Subsequent Events**

Management of INTEGRIS *Health* has evaluated subsequent events through September 22, 2014, the date on which the consolidated financial statements were issued.
