Capital-Gains Distributions If you own shares of the Sanford C Bernstein Fund, Inc., you may have received an annual capital-gains distribution (different from the capital gains or losses on securities sold, which are listed in this report). Long-term capital-gains distributions are a separate item on the I R S forms, and appear on the Summary-of-Key-Items report.

Zero-Cost Transactions If you transferred securities to Bernstein for which the purchase price was unavailable, the total capital-gains figure that appears on this report needs to be adjusted. Any such transactions are segregated on the Capital-Gains report, with the cost entered as zero. You will need to update the report data with the correct purchase information.

Capital-Gains Distributions: If you own shares of the Sanford C Bernstein Fund, Inc., you may have received an annual capital-gains distribution (different from the capital gains or losses on securities sold, which are listed in this report). Long-term capital-gains distributions are a separate item on the I.R.S. forms, and appear on the Summary-of-Key-Items report.

Zero-Cost Transactions: If you transferred securities to Bernstein for which the purchase price was unavailable, the total capital-gains figure that appears on this report needs to be adjusted. Any such transactions are segregated on the Capital-Gains report, with the cost entered as zero. You will need to update the report data with the correct purchase information.

This information should be reviewed by your tax advisor or accountant.

Market value information, including prices and accrued income, Estimated Annual Income (EAI) and Estimated Yield (EY), has been obtained from sources which we believe to be reliable. We make no statement or warranty that any quoted value necessarily reflects the proceeds which may be received on the sale of a security.

Total cost is the net amount paid excluding purchase income.

AI = Accrued Income (interest and dividends).

*Net Cash reflects the market value of cash in the equity portion of the account.

The above quantity rounds your fund shares to the nearest whole share. For the fractional shares held, see your monthly brokerage statement.

¹International and Emerging Market fund yields are estimates based on stock dividends and interest income generated from cash and securities held directly in the fund, net of estimated fund expenses. These dividends are distributed annually. Additionally, the funds may make annual distributions of short and long-term capital gains.

²Fixed income fund yields are calculated using the 30 day S.E.C. yield. Municipal yields may include a portion of taxable income. Estimated annual income for the fixed income portfolios is based on the monthly income dividends and does not include capital gains distributions. Therefore yield will differ from estimated annual income.
